WE ENERGY

THINK
GREEN

We Energy - The “greenest” energy provider in Greece!

According to the officially announced data of the national energy mix as well as the performance characteristics of the electricity suppliers in 2018, “The greenest mix was achieved by EUNICE TRADING – WE ENERGY, with 84.97% out of Renewable Energy Sources (RES) and 138.59 grams of CO₂ emission/MWh.”

WE ENERGY is an electricity and green certificates provider as well as electricity trader and aggregator. WE ENERGY is a member of the EUNICE ENERGY GROUP (EEG).

WE ENERGY's activities include:

- ✓ Provision of electricity with competitive tariffs to businesses and households throughout Greece
- ✓ Import and export of electricity
- ✓ Aggregator Services
- ✓ Provision of green certificates and guarantees of origin (GOs)

WE ENERGY is the **only provider in Greece** that supplies the national electricity system with **100% “green energy”** and provides the corresponding official state and corporate certificates.

WE ENERGY addresses to:

- Businesses interested in reducing their energy footprint
- Businesses whose eco-sensitivity improves their corporate image and boost their sales argumentation
- Energy Communities for action planning and development
- Individuals with increased ecological consciousness

Our Vision

Be the first choice in terms of electricity supplier for households and businesses that are willing to consume clean, green energy.

To co-create Together (WE) a world of sustainable growth and energy autonomy for all, with utmost respect to the environment.

Through the EEG Group, WE ENERGY, supplies clean, green electricity generated from wind and solar parks in Greece with a total installed capacity of approximately 90MW.

ARKADIA WIND PARKS

Since 2007, "Aiolika Parka Arkadias" wind park is in operation with a total capacity of 16.2MW.

"ARKADIKA MELTEMIA" WIND PARK

In 2007, "Arkadika Meltemia" wind park with total capacity of 34.5MW came into operation. The expansion of the existing park by 9.2MW was completed in 2019.

VOIOTIA "KEDROS" WIND PARK

In 2011, "Aioliko Parko Viotias Kedros" wind park with total capacity of 13.8MW came into operation. The expansion of the existing park by 6.9MW was completed in 2019.

PV PARKS

Since 2013, EUNICE ENERGY GROUP (EEG), owns a PV portfolio of 8.43MW in operation. The Solar Parks are located in the regional units of Ilia, Laconia, Aitoloakarnania & Xanthi.
